PROFILE

An experienced, motivated, adaptable, creative, and proactive developer specializing in JavaScript (ES6+), HTML & CSS, and Lua scripting, with a strong focus on creating efficient, scalable, and reliable solutions. Proficient in FiveM and Discord development, as well as database management, with a track record in debugging complex issues and optimizing performance.

WORK EXPERIENCE

- FiveM Development

2023 – 2025

 - Created custom FiveM scripts and engaging game mods, implementing intricate gameplay mechanics with high efficiency and reliability.
 - Designed and maintained strong database structures to enhance data management and retrieval processes effectively on a daily basis.
- Discord Development

2021 – 2025

 - Developed and managed Discord bots for moderation, community engagement, and automation, enhancing functionality and reliability.
 - Incorporated various APIs to expand bot capabilities and improve user experience, ensuring superior performance and scalability.
- Software Development

2019 – 2024

 - Experienced developer with expertise in JavaScript, HTML & CSS, and Lua scripting, dedicated to crafting efficient and reliable solutions.
 - Worked closely with clients and project owners to comprehensively and effectively understand requirements and deliver top-tier solutions.
